-  Building habits
-  Reading
-  Being active

LUIGGY MACIAS

Summary

Frontend developer who has 1+ year of programming experience.

Projects

Drum Machine App

React | Redux | HTML | JavaScript | Sass

This application allows you to listen to some clips, you can switch between two drums, turn the drum on and off and raise and lower the volume of the drum.

Room homepage

React | React useEffect & useState | HTML | JavaScript | Sass

This homepage were helpful to test my layout skills. There's a slider that also were helpful to practice React Hooks

URL Shortening API

HTML | CSS | JavaScript | shortcode API

This is a project where the user can shorten any valid link, this was made with the shortcode API

Insure Landing Page

HTML | CSS | JavaScript | Responsive Web Design | Media queries

Product Landing Page built for fake Insure brand. This was useful for practicing responsive web design.

Education & Certificates

Improving my problem solving skills by doing katas in codewars. — Codewars
