EXPERIENCE BUILDING PROJECTS

Launch countdown timer:

- Live Site URL: [click here](#)
- Code: [click here](#)
- Build with HTML, CSS, JAVASCRIPT, SASS
- In this project I used SASS to implement its functionalities to make CSS code more efficient

Interactive pricing component:

- Live Site URL: [click here](#)
- Code: [click here](#)
- A responsive pricing component built with HTML, CSS, JQuery, in which you can select a certain price, you can pay monthly or annually, if you select it annually a discount is added

Insure landing page:

- Live Site URL: [click here](#)
- Code: [click here](#)
- Landing page with desktop and mobile workflow, built with HTML, CSS, Javascript and media queries, implementing CSS Flex to reverse the position of the family image
